RE: Thank you for your support to Temple University's Supply Chain Program

Dear Mr. Coyle,

I, on behalf of Temple University's Supply Chain Program, would like to thank you for your recent support and contribution to WTA's scholarship fund, which was awarded to two of our students. Such scholarships help motivate students, provide them access to education and encourage them to pursue their study plan. Concurrently, your company's name, involvement and backing help us build a stronger and attractive program.

Supply chain management is a relatively new and upcoming program at Fox. We believe that with increased globalization and offshore sourcing, supply chain management has become vital to every business. Consequently, knowledge of effective supply chain strategies and skills has become essential for our graduates. In the hope to serve our local Philadelphia and Delaware Valley region's businesses, we are working towards offering an undergraduate major in supply chain management, starting next fall. It will be great if we could gain your participation and feedback as we develop and launch this program.

I will also cherish the opportunity to meet you and talk about your company's needs. We would like to explore how we could help prepare our students to meet your business requirements. Every year we hold a small career fair where students meet our industry partners and explore job opportunities and career growth in the field of transportation/ logistics and supply chain management. I would like to invite you to come and join us this year. The event is scheduled for Wednesday, Oct 15 @ 4:30PM. It will be a pleasure if you and others from your supply chain or human resources department attend. Please feel free to contact me at nmittal@temple.edu, should you need any additional information.

I thank you again for your support and hope to connect with you in the near future.

Sincerely,

Dr. Neha Mittal
Assistant Professor, Department of Marketing and Supply Chain Management
